SUMMARY

Frontend developer with 3.5 years of experience across React and Vue.js codebases. Strong on responsive UI, REST API integration, and CSS architecture. Looking to deepen TypeScript and SSR experience.

EXPERIENCE

Frontend Developer - MidCorp Solutions

Apr 2023 - Present

- Maintain a React 17 dashboard used by ~5,000 internal users; migrated 30+ class components to hooks.
- Built a Vue.js marketing site with Nuxt 2; handled i18n, SEO meta, and form integrations.
- Introduced Tailwind CSS - reduced custom CSS by ~40%.
- Mentor one junior developer on code review and Git workflow.

Frontend Developer - SmallCo Studios

Sep 2021 - Mar 2023

- Built marketing landing pages and small client tools in React + Redux.
- Some Node.js / Express work for lightweight backend endpoints.
- Wrote integration tests with React Testing Library.

EDUCATION

BMS College of Engineering · B.E. Computer Science · 2017 - 2021
